Engineered T cells: the promise and challenges of cancer ...

From the role of Artificial Intelligence (AI) to policy levers each state should have, Tom explores the promise, and challenge, of student-centered learning.

The Promise and Challenge of Phosphorus-Based Composites ...

The responsible AI challenge. AI will not live up to its promise if the public loses confidence in it as a result of privacy violations, bias, or malicious use, or if much of the world comes to blame it for exacerbating inequality. Establishing confidence in its abilities to do good, at the same time as addressing misuses, will be critical.

The promise and challenge of the age of artificial ...

A deep understanding of any social species requires understanding why and how brains interact. In this issue of Neuron, Wheatley et al. highlight recent advances making this pursuit increasingly tractable, as well as the challenges of studying interacting brains.

McKinsey Global Institute The promise and challenge of the age of artificial intelligence 3 AI's potential cuts across industries and functions AI can be used to improve business performance in areas including predictive maintenance, where deep learning's ability to analyze large amounts of high-dimensional data from audio and images can

Beyond the Isolated Brain: The Promise and Challenge of ...

The Promise and Challenge of Stochastic Computing Abstract: Stochastic computing (SC) is an unconventional method of computation that treats data as probabilities. Typically, each bit of an N-bit stochastic number (SN) X is randomly chosen to be 1 with some probability p_X , and X is generated and processed by conventional logic circuits.

The promise — and challenge — of IoT data - Cisco

This report leverages the experiences of four faith-based organizations that developed mentorship programs aimed at supporting older, high-risk youth. Readers will explore data-driven findings, moves to make and challenges to consider when designing similar programs that connect caring adults with youth whose lives have veered off track.
