Social Constructionism or the social construction of reality is a theory of knowledge of sociology and communication that examines the development jointly constructed understanding of the world.

WHAT IS SOCIAL CONSTRUCTION? - Paul Boghossian

Strong social constructionism, on the other hand, states that the whole of reality is dependent on language and social habits, that all knowledge is a social construct, and that there are no brute facts. So it would say that we created the idea of quarks and everything we use to explain it. There are no facts that just exist. The main criticism ...

Social constructionism (video) | Khan Academy

The social construction of gender is a theory in feminism and sociology about the operation of gender and gender differences in societies. According to this view, society and culture create gender roles , and these roles are prescribed as ideal or appropriate behavior for a person of that specific sex.

Social constructionism - Wikipedia

social events. Rather, the idea is to expose the way in which a particular belief has been shaped by social forces: the belief that there is a particular kind of person – the woman refugee – deserving of being singled out for special attention. Talk of the social construction of belief, however, requires some elaboration of the core idea.

perflensburg.se

Social constructionism and social constructivism are sociological theories of knowledge that consider how social phenomena or objects of consciousness develop in social contexts. A social construction (social construct) is a concept or practice that is the construct (or cultural artifact) of a particular group.
