The test of these hypotheses is the military strategy of interwar France, Germany and Great Britain. While Posen's work has great explanatory value for the formation of military doctrine, what it does in actuality is refute the richness of organizational theory for explaining the sources of military doctrine.

**The Sources Of Military Doctrine**

Military doctrine is the expression of how military forces contribute to campaigns, major operations, battles, and engagements.. It is a guide to action, rather than being hard and fast rules. Doctrine provides a common frame of reference across the military. It helps standardize operations, facilitating readiness by establishing common ways of accomplishing military tasks.
