Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

Art under capitalism. Like most kids, I imagined an artist's life to involve late mornings full of coffee and poetry, and late evenings spent hammering away at a typewriter under the influence of incense or wine. Now, as a 20-year-old beginning to explore the real writing world, I know that this image of the artist is a fantasy, and you ...
