WildPlaces

In The Wild Places, Robert MacFarlane sets out to find if there are any such environments left within the British Isles. The book begins contemplatively, with the author journeying to one of his favourite local places, a beech wood outside the city of Cambridge where he lives, climbing a tree as is his wont, so he can sit and observe, and be part of, this sylvan idyll.

The Wild Places (Duncan Browne album) - Wikipedia

The planet's wild places are disappearing at an unprecedented rate. In less than 50 years, we've lost 60 percent of wildlife populations. In the last century, 90 percent of large ocean fish have disappeared. Species of plants, animals, and insects are going extinct more than 1,000 times faster than ever before.
