I have a trane Varitrac older zoning system at

File Type PDF Varitrac Manual Comfort Manager

a factory the zoning is for offices. The complaint is its always warm. Especially the corner office. He says it holds at 76° no matter how cold or hot it is outside. It's older, installed in 02 or so. Apparently I need Hyper Terminal and some cable but I think I'm in over my head, but want to learn.

The VariTrac Damper is one major piece of the overall VariTrac and Tracker changeover/bypass zoning system. The damper is a pressure dependent airflow damper that controls a zone in a building. Used in conjunction with the VariTrac Central Control Panel (CCP), the damper helps to give the building individual zone control with a constant
