I remember the guy who played the piano in the church. He had no money, and he was just struggling to get by. This pastor treated him the absolute worst and spoke to him so poorly. It was terrible seeing someone get treated like that. When my girlfriend left and my other friends left, I realised I was going to be there alone and so I left as well.

Why C++ doesn't have support for unsigned floats is because there is no equivalent machine code operations for the CPU to execute. So it would be very inefficient to support it. If C++ did support it, then you would be sometimes using an unsigned float and not realizing that your performance has just been killed.
